

Which Filter Do I Need for My Bottle Filling Station?

Elkay genuine WaterSentry® filters are certified to make your water cleaner, safer and better-tasting. Here's how to make sure you have the right filter for your bottle filling station.

Elkay Enhanced ezH2O® Bottle Filling Stations

Enhanced units feature FillSafe™ recognition, which automatically recognizes a new filter and updates the LED filter status indicator light back to green, ensuring a fresh filter is installed.

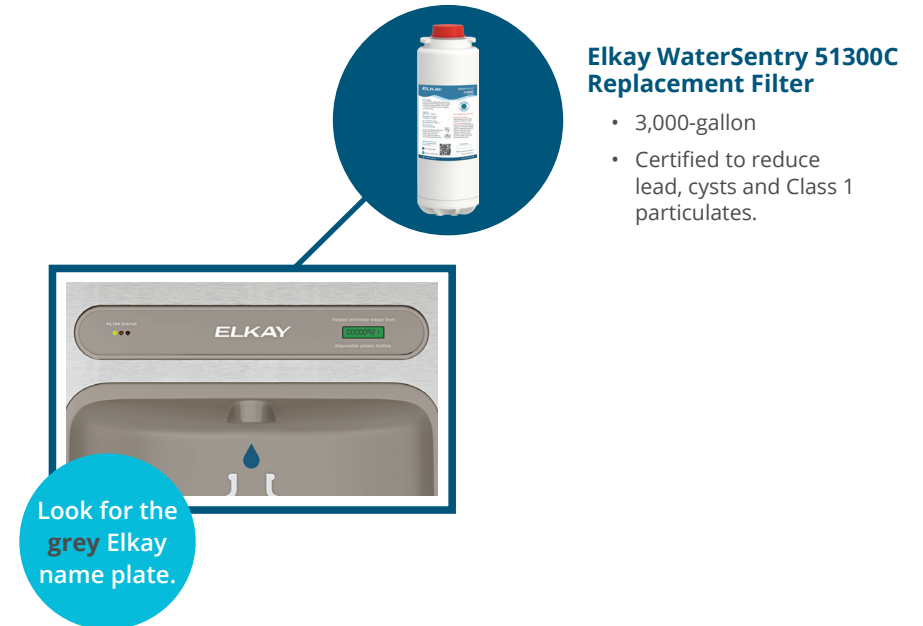

Look for the blue Elkay name plate.

- Elkay WaterSentry 71300C PFOA/PFOS Replacement Filter**
 - 2,250-gallon
 - Certified to reduce PFOA and PFOS, lead, cysts and Class 1 particulates.
