

ELKAY

Cleaner, **Safer** Water
for Schools

**YOU
CAN'T** **SEE**
SMELL
TASTE
LEAD

Even if it looks clean and pure, that doesn't mean it's safe to drink. With Elkay®, you help ensure that your child has access to fresh, filtered drinking water at school. Our ezH2O® bottle filling stations with filters are tested and certified to reduce lead and other harmful contaminants to help keep kids hydrated throughout the day.

One Source — Sustainable Solutions, Improved Hydration

Elkay products feature WaterSentry® filtration systems. These reliable filters are tested and certified to NSF/ANSI 42, 53 and 401 for the reduction of lead, cysts, microplastics and other contaminants. This ensures you're delivering cleaner drinking water.

Filtered Bottle Filling Stations

Our bottle filling stations provide a convenient hydration solution, with many models now featuring completely hands-free operation. Touchless, sensor activation provides a rapid fill of filtered water while minimizing the spread of germs. Cleaner water, clean hands, and less plastic bottle waste.

Filtered Coolers and Fountains

Our water coolers and fountains now feature sensor-activated push bars to activate waterflow. Enjoy filtered water completely hands free: it's a truly refreshing solution.

Vandal-resistant Retrofit Kits

Our vandal-resistant water filtration kits are great for use on existing non-filtered water coolers, fountains and bottle fillers and include:

- Vandal-resistant Box
- WaterSentry Filter
- Filter Monitor and Alert
- Versatile Mounting Options

Filtration Solutions

Keep your unit delivering cleaner water with our replacement water filters. Or convert your non-filtered unit to a filtered unit when you purchase an Elkay retrofit filtration system kit. Our water filters can be installed on:

- Bottle Filling Stations
- Coolers and Fountains
- Classroom Sinks
- Classroom Bubblers
- Glass Fillers
- Faucets (under the counter; cold water only)

Elkay is your single source for filtration solutions, including vandal-resistant retrofit kits, WaterSentry filters and retrofit filtration system kits.
