CROSSTOWN[®]

THAT'S ELKAY

At Elkay[®], we design and engineer sinks with our customers in mind. Innovation is at the heart of everything we do.

The Crosstown[®] stainless steel sink is the ultimate mix of beauty and function. Its overall geometric design combined with cross breaks inside the sink bowl give it the look and feel of sinks found in professional kitchens. This collection offers high-quality 16- or 18-gauge, Type 304 stainless steel for durability and tight corners for a modern shape. Sound-deadening materials mean a quieter time while working at the sink.

With hundreds of models to choose from, Crosstown offers a variety of installation styles and features, that make this collection a great choice for any home.
